

Installation Guide: Grandstream XV-3000 Video Phone

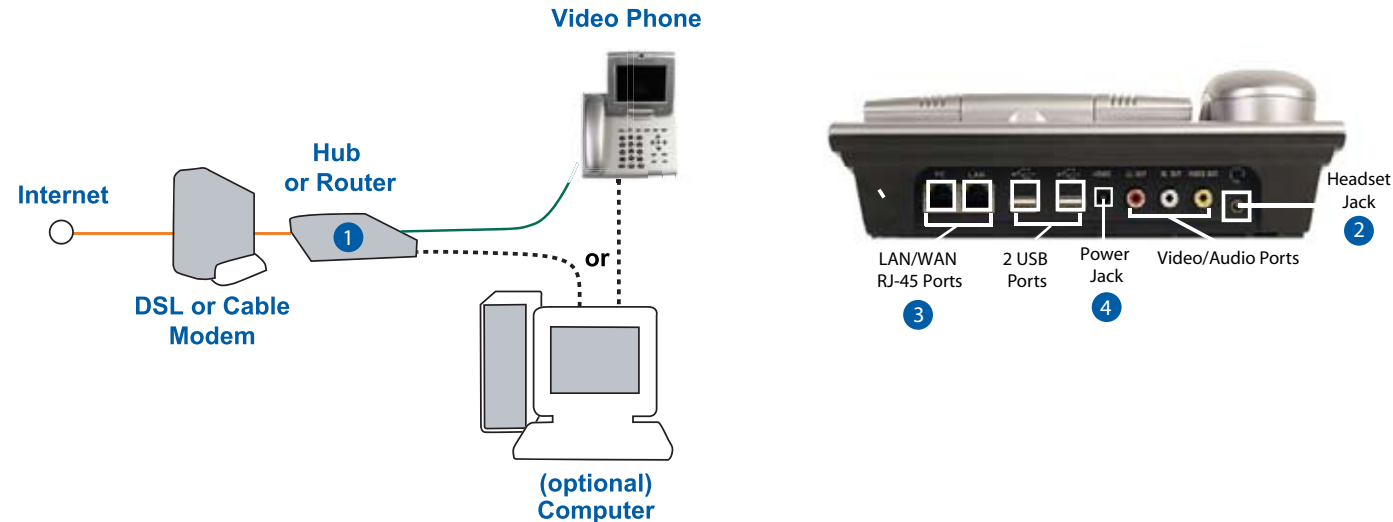

GXV-3000

Basic Installation Instructions
for connecting the GXV-3000 video phone to the Internet via a router connected to a Cable or DSL modem

Your Start-up Kit should include:

- GXV-3000 Main Case
- Handset
- Phone Cord
- Universal Power Adapter
- Ethernet Cable
- Two Wall Mount Sustaining Brackets
- Quick Installation Guide

Step 1: Connect the handset and main phone case with the phone cord via the Headset Jack. ②

Step 2: Connect the WAN port ③ of the phone to the RJ-45 socket of a hub/switch or a router ① using the Ethernet cable. (Optional: You can connect a PC or switch to the LAN port).

Step 3: Connect the 12V DC output plug to the power jack ④ on the phone; plug the power adapter into an electrical outlet.

Step 4: The LCD will display provisioning or firmware upgrade information. Before continuing, wait for the date/time icon to light up. (date/time display "1900-01-02, 00"00" without a live network connection).

Step 5: Using the phone embedded web server or keypad configuration menu, you can further configure the phone using either a static IP or DHCP.
